

**ENERGY  
ACTION  
SCOTLAND**

Norrie Kerr

# Energy Action Scotland

TSO – DSO – DNO? = IDK

Public understanding of energy market – 25% of cost of energy is in getting energy to the home but where does that appear on the bill?

Will a new system reduce or increase bills?

Is flexibility a benefit to the consumer and if so how?

Peer to Peer flexible markets - does our smart meter revolution support this?

What is the role of housing market – new build and retrofit?

Can we really excite ordinary consumers or just the geeks?

# The Grand Plan
