

Active Solutions Team

Scottish and Southern Electricity Networks

Our Active Solutions Team is a new team, appointed to roll out certain proven innovations that require more support once they have been installed and commissioned.

Currently this means they are responsible for rolling out Active Network Management and other types of flexible connections across both our distribution areas, north and south for the benefits of your connection and to the UK customer in general.

Active Solutions Manager

Andrew Urquhart

Andrew is responsible for the overall programme management of works delivered by the team. This includes identifying new forms of flexibility that could benefit Scottish and Southern Electricity Networks customers and transferring them across to the Business for widespread adoption. In addition he ensures that what the team delivers is fit for purpose and in line with Scottish and Southern Electricity Networks strategies.
