

NOTICE OF UPCOMING TEMPORARY TRAFFIC MANAGEMENT ON LINDFORD ROAD, BORDON

- We are installing 18km of existing cabling to provide a modern and more resilient electricity network.
- A part of the cable route runs along Lindford Road and Louisburg Avenue.

Works planned for Lindford Road

To conduct this work safely, a road closure on Lindford Road will be in place from 13 November 2023 to 16 February 2024.

Please note that Lindford Road will temporarily reopen for the festive season. This is in line with Hampshire County Council's Christmas embargo for Highways roadworks.

The road will be closed to through traffic on these dates. During this time a temporary diversion route will be in place. Maps of diversion routes have been included in this notice.

The diversion route must be suitable for all diverted traffic and be of a similar grade of carriageway, therefore the shortest available route is the one that is being adopted.

Local access will be maintained. If you are concerned about accessing your property during this time, please contact us using the details at the end of this letter.

There will also be work undertaken along the verge of Louisburg Avenue from 13 November 2023 to 14 January 2024. These works will be undertaken in the verge and footway next to the road and appropriate traffic management measures will be deployed to maintain safety. SSEN will endeavour to minimise disruption as much as possible.

Please note, this schedule may be subject to change depending on site and weather conditions.

What to expect

- You might see us working on site during the day.
- Some low-level noise from onsite machinery during working hours.

What we will do

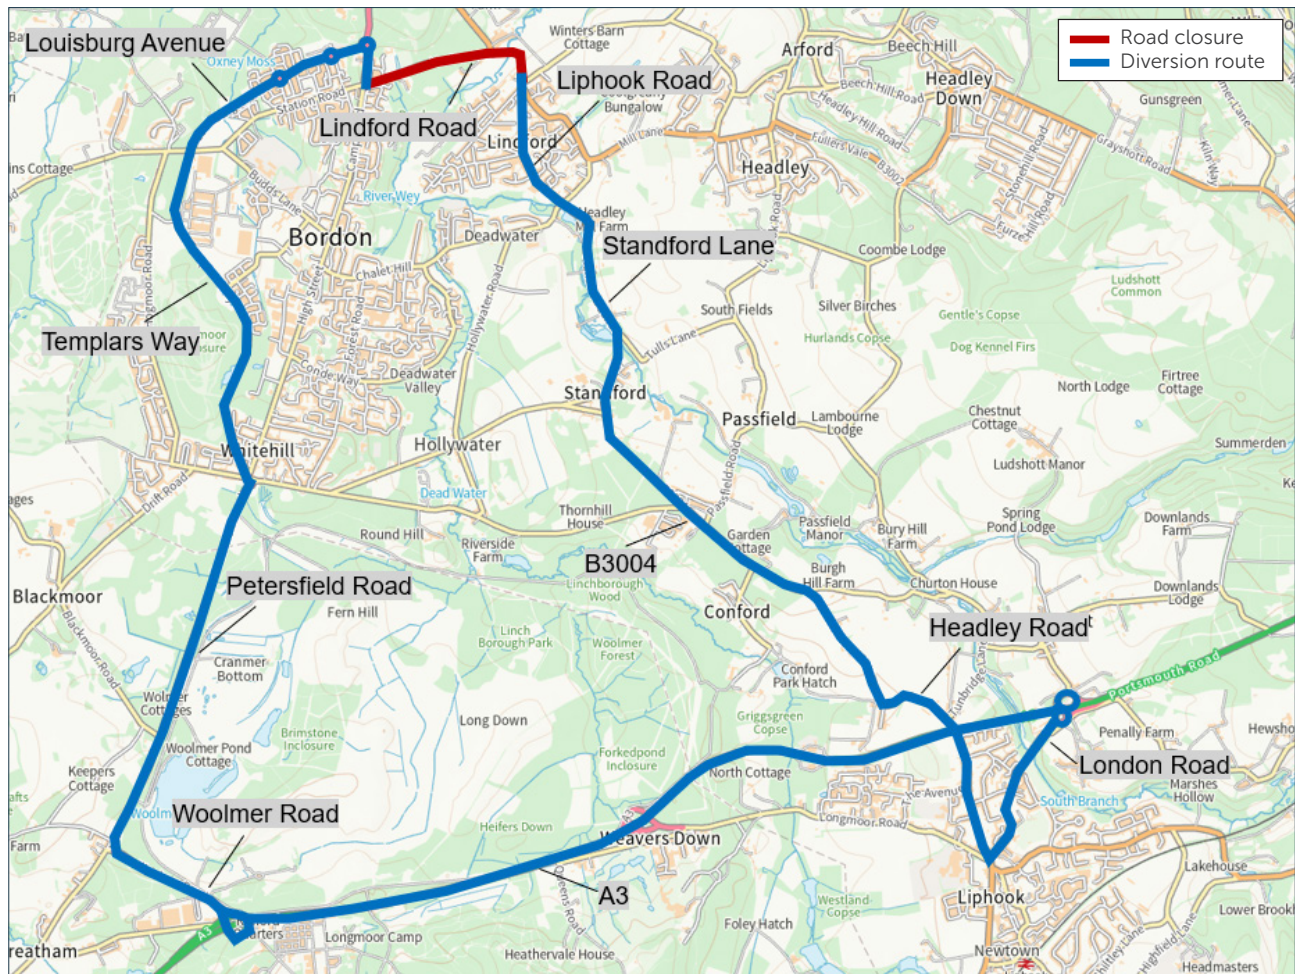

- Keep all sites safe and secure, while keeping disruption to a minimum.
- Answer your questions via our community phonenumber and mailbox.

Whilst we are carrying out this work, we'll aim to keep any noise and disruption to a minimum. There are no planned power cuts scheduled to take place during the works. See map below for the location of the works.
