

NOTICE OF UPCOMING TEMPORARY TRAFFIC MANAGEMENT ON MILL CHASE ROAD IN BORDON

We are undertaking road resurfacing works on Mill Chase Road. Following electricity network reinforcement works that took place previously we are returning the road to its previous condition.

To conduct this work safely, we will be temporarily closing Mill Chase Road on the following dates:

- Mill Chase Road: 1-4 April 2024

A diversion route will be signposted

Whilst the works are carried out, a temporary diversion route will be in place. Maps of the road closure and diversion route can be found on the next page. If you are concerned about accessing your property during this time, please contact us using the details found at the bottom of this letter.

Maintaining local access

People who live or work on Mill Chase Road can still drive in and out. For access to Hamilton Close, please drive via the Hollywater School car park as shown by the purple line in the map overleaf. Residents, delivery drivers, blue light services and the council's waste collection service can all still use the road in both directions, via the diversion route, up to the section of road where the team is working. Pedestrian access is always maintained.

Find the location of the team during the works

Please visit www.ssen.co.uk/alton-bordon-network-investment or scan the QR code to see where the team is working.

Why has this diversion route been chosen?

A diversion route must be suitable for all diverted traffic and be of a similar class of carriageway. The blue diversion route is the shortest available route that meets these requirements. There are other shorter routes available for cars and vans, which local road users may choose to use. However, these will not be signed in case HGV's follow the route.

What to expect:

- You might see us working on site during the day.
- Some low-level noise from onsite machinery during working hours.

What we will do:

- Keep all sites safe and secure, while keeping disruption to a minimum.
- Answer your questions via our community phonenumber and mailbox.

Good to know:

There are no planned power cuts scheduled to take place during the works.

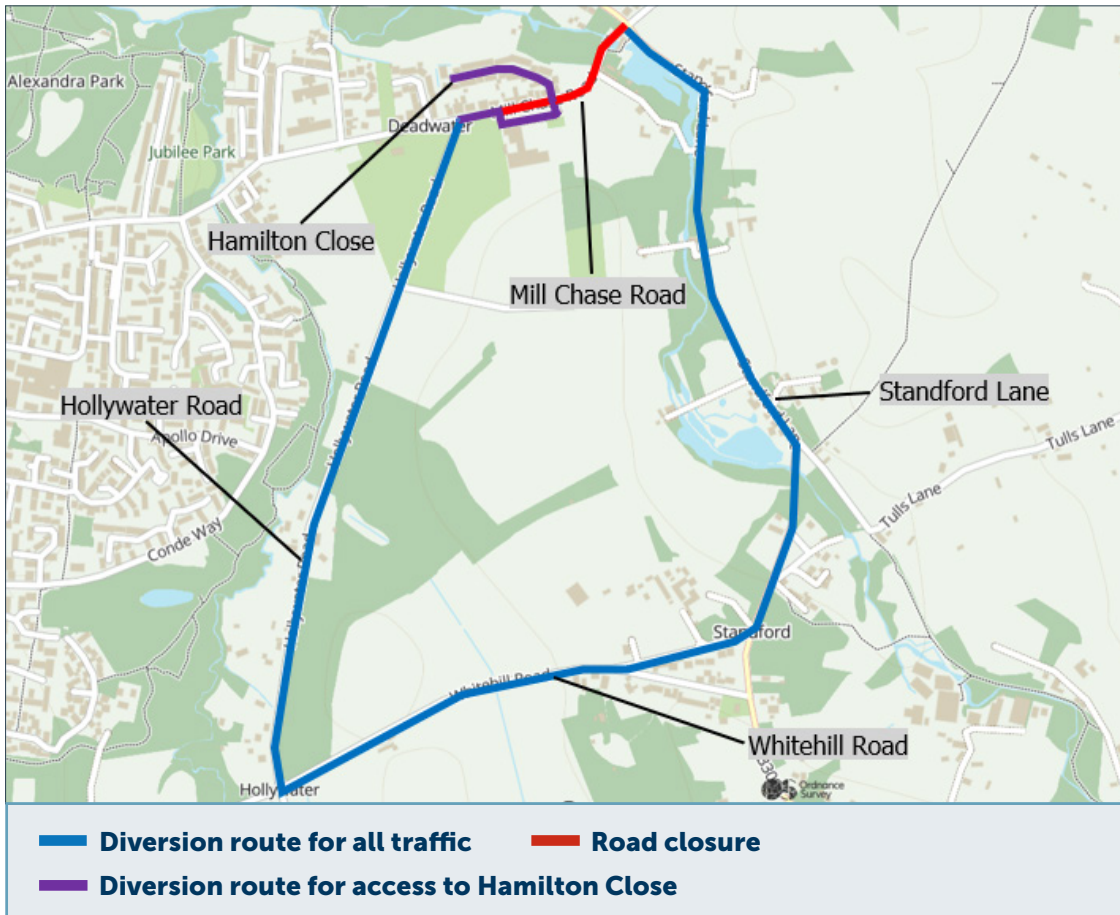

Whilst we are carrying out this work, we will aim to keep any noise and disruption to a minimum. Please note that all our works are subject to weather conditions and all the dates in this notification are subject to change.
