3. BASIS OF CHARGES FOR MPAS

- 3.1 SEPD provides the MPAS for Metering Points within our Distribution Services Area, unless other distribution network operators operating in our area provide or procure their own MPAS Service to cover the Metering Points within their embedded network. As an MPAS provider, we maintain a register of technical and other data that is necessary to facilitate the supply of electricity by an electricity Supplier to premises connected to our electricity distribution system. In addition, we amend the register to reflect any changes of Supplier registration at each premise. SEPD provides this data to Suppliers and/or their agents, any person identified in the Balancing and Settlements Code and any person identified by the Retail Energy Code as being entitled to receive such data.
- 3.2 SEPD also provides an enquiry service (the "MPAS Helpdesk") for any Customer or electricity Supplier and/or their agents. This provides data to the Customer and Supplier, in relation to the supply of electricity to the premises. The type of data held by the MPAS Helpdesk includes, amongst other things, the identity of the Supplier, the MPAN for each premises, the type of metering installed at the premises and a unique and accurate address for each premises.

The SEPD MPAS Helpdesk can be contacted on 0870 6081524.

E-mail: mpas@sse.com

3.3 MPAS charges recover the costs associated with information technology and the resources required to provide this service and are recovered in our Use of System Charges (as advised within our Licence Condition 14 Statement). The additional MPAS activities, as stated in Schedule 1, are charged on a transactional basis, at the request of the electricity Supplier.
