

# APPLICATION FORM

## QUOTE TYPE

This is mandatory for all applications

**Budget Estimate** - a rough estimate to give you an idea of how much it might cost.

**Feasibility Study** - a chargeable check to see if your large project is realistic and practical.

**Formal Quote** - a detailed offer which you can accept and progress with.

## YOUR DETAILS (APPLICANT)

This is mandatory for all applications

Your Name

Mobile Number

Landline

Email Address

If you're applying on behalf of a company:

Company Name

Company Address

Postcode

Contact Number

Email Address

**Preferred Contact Method**

We'll use your preferred method of contact whenever possible, but may reach out through other channels if we're unable to reach you.

Phone

Email

SMS

Any

## SITE DETAILS

This is mandatory for all applications

Please provide the full site address, grid reference and/or what3words location to help us accurately identify the site. This information ensures we can correctly process your application.

# DOMESTIC CONNECTION DETAILS

Only complete this section if you are looking to connect domestic supplies

Please provide information about your power requirements, heating type, and any other relevant energy needs to help us understand your project. You can use our online demand estimation tool to get a quick indication of your expected energy needs before completing this section.

## Domestic Connection

Type of property eg. house, flats	Number of bedrooms	Number of properties	Load required per property
			kVa
			kVa
			kVa
			kVa
			kVa
			Total

What phase is the connection?

Single phase

Split phase

Three phase

What will the heating type be?

Electric

Gas

Heat Pump

Oil

Other

If Heat Pump, what is the make and model?

Make

Model

Will you be installing EV Chargers?

Yes

No

If yes, what is the make and model?

Make

Model

## Additional Information

Please use the space below to share any other details about your project that you think would be helpful for us to know.

## COMMERCIAL CONNECTION DETAILS

Only complete this section if you are looking to connect commercial supplies

Please provide information about your power requirements, heating type, and any other relevant energy needs to help us understand your project. You can use our online demand estimation tool to get a quick indication of your expected energy needs before completing this section.

### Commercial Connection

Type of property eg. office, warehouse	Number of Meter Points	Load required per property
		kVa
		kVa
		kVa
		kVa
		kVa
		Total

What phase is the connection?

**Single phase**

**Split phase**

**Three phase**

Will you be installing EV Chargers?

**Yes**

**No**

If yes, what is the make and model?

**Make**

**Model**

Will you be installing a Heat Pump

**Yes**

**No**

If yes, what is the make and model?

**Make**

**Model**

### Additional Information

Please use the space below to share any other details about your project that you think would be helpful for us to know.

## ADDITIONAL CONNECTION DETAILS

This is mandatory for all applications

### Preferred Connection Date

We'll make every effort to meet your preferred connection date, however, this cannot be guaranteed.

### Temporary Building Supplies

A temporary building supply is an electricity connection on a construction site so builders have power while the project is underway. They can either be removed or become a permanent supply later

Do you need a temporary building supply?

Yes

No

If yes, what load do you need?

kVa

If yes, will the connection be removed or made permanent?

Removed

Permanent

Other

### Landlord Supplies

A landlord supply is a power supply that the property owner uses for shared areas, like hallway lights, lifts, or security systems, rather than for individual tenants' homes.

Do you need any landlord supplies?

Yes

No

If yes, what load do you need?

kVa

## GENERATION/ADDITIONAL LOAD DETAILS

Only complete this section if you are looking to connect generation or additional loads

Will there be any generation installed?

Yes

No

If yes, what type of generation is being installed?

Capacity

Make

Model

Solar

Wind

Battery Storage

Other

# GENERATION/ADDITIONAL LOAD DETAILS

Only complete this section if you are looking to connect generation or additional loads

## Additional Loads

Additional loads are equipment like motors and welders that place extra demand on the electricity network. You need to let us know if they need their own power supply and are in excess of 13 amps.

Will there be any additional loads?

Yes No If yes, please complete the table below:

Type of load	Number of connections	Rating (kW)	Phase	Starts per hour	Starting method	Starting current

Please also complete relevant ENA generation application forms as below, and submit with this form.

- Individual installations <3.68kW use G98 Form B
- Multiple installations <3.68kW use G98 Form A
- Individual and multiple installations >3.68kW <50kW use G99 Form A1-1
- Individual and multiple installations >50kW use G99 standard application form (SAF)

## Additional Information

Please use the space below to share any other details about your project that you think would be helpful for us to know.

# CONTACT ROLES

This is mandatory for all applications

## Connecting Customer

The Connecting Customer is the person or company who will ultimately use the connection. This is typically the landowner, occupier, or in the case of an Independent Distribution Network Operator (IDNO) application, the IDNO themselves

Are you the connecting customer? **Yes** **No**

If no, please provide the following;

**Name**

**Company Name**

**Company Address**

**Postcode**

**Contact Number**

**Email Address**

Are you the Landowner? **Yes** **No**

If no, please provide the following;

**Name**

**Company Name**

**Company Address**

**Postcode**

**Contact Number**

**Email Address**

# CONTACT ROLES

This is mandatory for all applications

## Commercial Contact

The Commercial Contact is the person or company chosen by the Connecting Customer to handle the application and connection project on their behalf. This can be anyone, but is usually a developer, consultant, architect, Independent Connection Provider (ICP) or installer.

Are you the Commercial Contact? **Yes** **No**

If no, please provide the following;

**Name**

**Company Name**

**Company Address**

**Postcode**

**Contact Number**

**Email Address**

## The Payer

The Payer is the person or company appointed by the Connecting Customer to manage the finances on the job. Again, there's no limit on who this can be.

Are you the Payer? **Yes** **No**

If no, please provide the following;

**Name**

**Company Name**

**Company Address**

**Postcode**

**Contact Number**

**Email Address**

## IMPORTANT

Please include the following documents where relevant:

- **Letter of Authority** – if you are not the landowner
- **Site Plan** – showing the meter location (required for all applications)
- **Any other supporting documents**

**Disclaimer:** We may contact you to request additional information if needed, so that we can provide you with the most accurate quote.
