

ELECTRICITY IMPROVEMENTS IN YOUR AREA

We're improving electricity supply in areas like yours, so homes have the power they need now and in the future.

To find out more about this work, visit ssen.co.uk/improvements

You've received this because your home is in an area we're looking at for these improvements.

WHAT'S HAPPENING?

In some homes, electricity is delivered through a cable that is shared with a neighbour, which means more than one home is connected to the same supply cable. This works well today, but as people use more electricity, it can limit how much power is available. We're upgrading this so each home has its own dedicated electricity supply.

Scottish & Southern
Electricity Networks

WHAT THIS MEANS FOR YOUR HOME

Upgrading your electricity supply can:

- ✔ Provide more power to your home.
- ✔ Improve reliability.
- ✔ Support things like electric cars and modern home heating.

You will not be asked for any payment for the completion of these works.

WHAT THE WORK MAY INVOLVE

To upgrade electricity connections, work may include:

- A visit to understand how electricity is set up in your home.
- A short planned power cut.
- Work outside your home.
- Digging in pavements, driveways or gardens.

Our delivery partner will contact you to arrange a visit and talk you through the work.

HELPING TO PLAN THE WORK

If you already have work planned at your home, such as building or driveway work, please let our surveyor know. This can help us plan ahead.
